Industrials All Raided and Railroads Weaker Under Pressure.

At New York, yesterday, money on call was easy at 142@2 per cent., the last loan being made at 1 1/2 @2, closing offered at 2 per

Prime mercantile paper, 442@6 per cent. Sterling exchange was quiet and easier, with actual business in bankers' bills at 24.85% for sixty days and \$4.87% for de-

mand. The total sales of stocks were 527,978 shares, including the following: Atchison, 6,300; Burlington, 4,900; Chicago Gas, 16,-100: Lackawanna, 7,200; Distillers', 113,100; Erie, 4,400; Louisville & Nashville, 5,300; Manhattan, 3,400; Missouri & Pacific, 5,100; National Lead, 9,000; New England, 12,900; Northern Pacific preferred, 10,000; Reading, 77,700; Richmond Terminal, 8,000; Rock Island, 10,300; St. Paul, 20,600; Sugar, 53,800; Union Pacific, 22.500; Western Union, 12,-

There was a collapse in the price of Whisky Trust at the opening of the Stock Exchange yesterday morning, and for a time dealings in those speculatives were attended with considerable excitement. There was a rush to sell at the opening. nd blocks of from 500 to 5,000 were thrown on the market regardless of price. The opening sale was at 4 per cent. decline from the closing figure Saturday, the first sale being at 43 against 47, at which it closed on Saturday. From this figure the price rapidly fell until it touched 38. This was a decline of 9 per cent, from Saturday's price. The selling was due to reports and published statements to the effect that the Distillers' and Cattle-feeding Company, under which name the trust is known, was in financial straits. It was stated, among other things, that the rebate fund of \$2,500,000 had been used up, that a floating debt had been created, and that the directors at a meeting held on Saturday, had decided to pass all further dividends until the debt had been wiped out and the rebate fund re-established. Whisky recovered to 421s on supporting orders, and also on the denial by the directors of the statement that at their meeting on Saturday they had decided to pass dividends. The sales for the morning amounted to 248,475 shares. The bear traders raided Sugar in the early dealings, but all their offerings were taken by the buil pool. There was no indication of the short interest being covered, and is per cent. was paid for the stock for delivery purposes during the day. The selling movement of the morning was renewed at intervals during the afternoon, and the pressure to sell was especially marked in the last hour. The closing prices for the majority of the list were the lowest of the day. Union Pacific was weak on a rumor that the road was to be turned over to the government. It closed 11/2 per cent. lower. The decline for the day ranged from 14 to 4%, the latter in Whisky Trust. The sales for the day amounted to 526,032 shares. ### LOCAL GRAIN AND PRODUCE.

Provisions Up Another Notch, Eggs Advance 5 Cents and Vegetables Are Easier.

It being mild weather trade yesterday was quite active with the wholesale men. The week begins with an advance in hog products, lard reaching 1340 at wholesale. Eggs come in slow and the price yesterday was advanced by shippers to 30c per dozen. Receipts of Irish potatoes are more liberal and yesterday they were selling at \$1 a bushel. Other vegetables are easier in tone. Sugars and coffee are very firm at the advances of last week. The dry-goods men talk of strong prices and goods are moving well for January. The seed men are shaping up matters for a brisk spring trade, and in fact there has been an improvement in the last few days. Poultry rules steady and firm. Butter, unless a very choice article, moves slow. Prices are easy except on the best quality.

Wheat Fluctuates Freely, but Settles Back

Nearly to Saturday's Figures, CHICAGO, Jan. 30 .- Wheat climbed up the hill to-day, and then climbed down again, closing at almost exactly Saturday's final figures for May and 4c lower for July. Corn and oats did about the same thing. Pork got well beyond the magic \$20 mark for the first time, and, unlike grain, showed a substantial gain at the wind-up, leaving off with an advance of 171/20 over the closing figures of Saturday. Lard is up .1212c and ribs .15c. Wheat was stronger, mainly on the report of a cold wave. It was raining yesterday in many portions of the winter-wheat belt, and as this was likely to be followed by a freezing, if not zero weather, there was some apprehension of injury. Shorts covered pretty freely, while there was also a fair amount of investment buying, and not much for sale.

There were some other strong features in the market besides the weather. The French wheat crop was only 85 per cent. of last year in condition, the area only 90 per cent. of last year, leaving a promise of only about three-fourths of last year's harvest.

The visble supply, for the first time in months, showed a decrease, but, as H. H. Aldrich remarked, "We had to burn up an elevator full of wheat in order to get it." However, business was largely local, the receipts here were unexpectedly heavy, and the closing cables weak and without much animation. During the last hour it broke sharply on free selling, which was supposed to be led by Cudaby and on the break there was free liquidation. The visible supply was also a weak factor, as it showed that but for the fire at St. Louis the increase would have been fully half a million bushels.

The opening was about be higher and ruled firm, prices advancing 4c more, declined % @1 sc and ruled easy, closing

18@4c lower than Saturday. Corn was decidedly strong at first, with good sharp buying. Initial trades were at the advance over the final quotations of Saturday, and soon afterward sold up a fraction more, a good many buying orders being at hand. At the top there was heavy realizing, which carried the price back %c, the offerings being too much for the local crowd to take care of. To-morrow's estimates came in at 500 cars, which was looked upon by many as a bearish factor. The market finally closed about

the same as Saturday. There was a good trade in oats early, first sales being at 4c advance, and sold up 4c more. The buying was not strong enough to sustain the bulge, and as other grains weakened, prices receded 3sc, and the market became very quiet, and closed at about the same prices as on Saturday.

There was another very interesting upward movement in prices of provisions for the day. It was no surprise, although the figures for all products begin to look pretty high. The cause of the advance was in the same line as on previous days. Hogs at the yards were 5,000 short, at 20,000, and the estimate was very light for Tuesday. at 15,000. Prices at the yards were advanced. Scalpers and shorts were buyers. and again the country has gotin on the long side. The close was at some reaction from top prices. Estimated receipts for to-morrow are: Wheat, 325 cars; corn, 500 cars; oats, 235 cars; hogs, 15,000. The leading

Convenient Easels.

Philadelphia Inquirer. easel are frequently hung three big cornucopia-shaped baskets of willow-work. These are used as catch-alls and very useful. They are, besides, exceedingly artistic. Some are gilded, some sprinkled with hand-painted designs and all of them are ribbon-run and decked out with the most coquettish bows before being strapped

into place. I ran across an easel last week which held these swinging baskets, and a prettier sight I could not ask for. The dainty wicker holders were filled to overflowing with ferns and roses, the remains of a rosebud luncheon. Everybody had brought an offering of roses, so that the receptacles were literally laden with the rarest epecimens from the floral kingdom. Tins coneshaped like the baskets and filled with water had been provided so that the blooms might be cared for. Artificial plants, such as feathery-looking ferns, stately palms and flowers nodding from their stems, are all used to finish this late easel novelty.

Vinegar will remove the disagreeable odor of kerosene from tinware.

# JOURNAL

DAILY.

SUNDAY

WEEKLY

Since the Journal reduced in price from 25 to 15 cents a week, it has greatly extended its circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate the result which was to be expected, namely, that what was first regarded as a luxury has become a necessity, and that the new readers not only remain, but their list is constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalist o progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State. Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The running of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed.
